

Notice of Study Commencement
Municipal Class Environmental Assessment Study
Stevenson Road North Corridor, Northwood Business Park
City of Oshawa
April 13, 2023

Project Overview

The City of Oshawa is undertaking a Municipal Class Environmental Assessment Study (M.C.E.A.) to determine appropriate upgrades to the Stevenson Road North corridor from Taunton Road West to Conlin Road West. The project will also review the need for a proposed east-west Type 'C' Arterial road in the Northwood Industrial Area (from the Oshawa/Whitby border to Stevenson Road North).

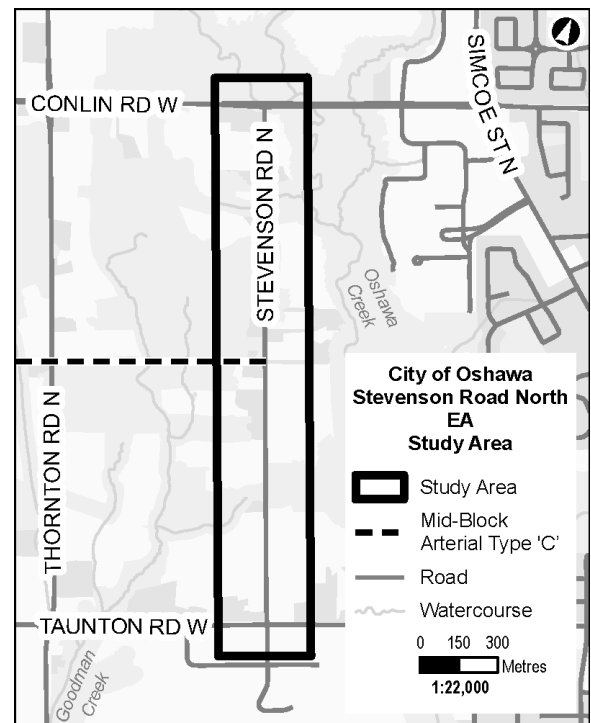

Currently, Stevenson Road North is a two-lane rural north-south road, with no paved shoulders or sidewalks. There is an opportunity to significantly improve the overall function of Stevenson Road North by upgrading the roadway infrastructure and municipal services to contribute to the development of adjacent lands and advance economic and job creation opportunities for the City.

Process

The Study is being completed in accordance with the *Municipal Class Environmental Assessment (2023)* as a Schedule 'C' project. The Study will consider a transportation strategy that will adequately address connectivity among all modes of transportation, road safety and traffic capacity. The purpose of this Notice is to advise area residents, businesses, and agencies of the upcoming Study.

A key component of the Study is consultation with interested stakeholders, and public input during the planning process is encouraged. A Public Information Centre (P.I.C.) is anticipated in late spring 2023 to present the Study process, existing conditions, the evaluation of alternatives and the next steps in the Study. Details regarding the P.I.C. will be advertised as the Study progresses. Study information will be available for review on the City's website at

Oshawa.ca/StevensonEA.
