

Whereas Sentence 2.3.1.1.(1) of Ontario Regulation 305/06, made under the authority of the Building Code Act, requires the building designated in Table 2.3.1.1. to be designed by an architect or professional engineer or both;

And Whereas Subsection 2.3.2. of the said Regulation provides that, where a building has been designed by an architect or professional engineer or both in accordance with Sentence 2.3.2.1.(1), an architect or professional engineer or both shall be responsible for the general review of the construction of the building in accordance with the performance standards of the Ontario Association of Architects or the Association of Professional Engineers of Ontario, as applicable;

Therefore, the owner, being the person who intends to construct or have a building constructed, hereby warrants that architects/ professional engineers are retained for the general review of the construction of the building as required in Section 2.3. of Regulation 403/97 and that

- a) the architect who is retained to undertake the general review of the construction of the building is to do so in accordance with the Performance Standards of the Ontario Association of Architects, Ontario Regulation 27, RRO 1990, s.50; to wit architects (including holders of a Certificate of Practice), with respect to the matters that are governed by the building code shall,
 - i) make periodic visits to the site to determine whether the work is in general conformity with the design documents that were prepared by a member or holder;
 - ii) inform the client and contractor, in writing, as to the progress and quality of the work and as to any part of the work that the member or holder has observed during the visits to the site not to be in conformity with the design documents;
 - iii) review all changes to the design documents to determine whether the changes conform to the building code;
 - iv) review and comment on shop drawings and samples for general conformity with the design concept of the work, and
 - v) if the architect is specifically engaged to coordinate the general review of the professional engineers and reports of the inspection and testing companies, coordinate the general review of the professional engineers and the reports of the inspection and testing companies that pertain directly to the work being reviewed and arrange for the distribution of such reports to the client and the contractor or
 - vi) if the architect is not engaged to perform any or all of the services listed in subparagraph (v), cooperate with the professional engineer responsible for the coordination of the general review in order to assist the professional engineer in the carrying out of the functions described in that subparagraph.

Note: **design document** means a design or other document which formed the basis for the issuance of a building permit and includes all changes thereto that were authorized by the Chief Official as defined in the Building Code Act.

- b) each engineer who is retained to undertake the general review of the construction of the building is to do so in accordance with the Performance Standards of the Association of Professional Engineers of Ontario, Ontario Regulation 941, RRO 1990, s.78; to wit professional engineers, with respect to matters that are governed by the building code, shall,
 - i) make periodic visits to the site to determine, on a rational basis, whether the work is in general conformity with the plans and specifications for the building;
 - ii) record deficiencies found during the site visits and provide the client, contractor and the owner with written reports of the deficiencies and the actions that must be taken to rectify the deficiencies;
 - iii) review the reports of independent inspection and testing companies called for in the plans and specifications and which pertain directly to the work being reviewed;
 - iv) interpret plans and specifications when requested to do so by the client, contractor or owner, and
 - v) review shop drawings and samples submitted by the contractor for consistency with the intent of the plans and specifications.

Note: **plans and specifications** means a plan or other document which formed the basis for the issuance of the building permit and includes all changes thereto that were authorized by the Chief Official as defined in the Building Code Act.

c) the owner, being the person who intends to construct or have a building constructed, agrees to have each of the retained Architect(s) and Professional Engineer(s) complete, properly authorize and return to The City of Oshawa, Buildings Branch, the General Review Commitment Certificate(s) prior and as a condition precedent to permit issuance and hereby authorize the retained Architect(s) and Professional Engineer(s) to forward directly to the Chief Official, forthwith upon their completion, all written reports arising out of the general review undertaken, pursuant to Section 2.3. of Ontario Regulation 305/06 by the retained Architect(s) and/or Professional Engineer(s).

Permit Application No.		
Project Description		
Location		
Name of Owner in full
