Screening Questionnaire for Identifying Potentially Contaminated Sites

This questionnaire has been developed to assist the City of Oshawa in identifying development applications on sites that may be contaminated as a result of a previous use or activity. The Ministry of the Environment, Conservation and Parks (MECP) has developed a "[Guideline for Use at Contaminated Sites in Ontario \(February 1997\)](#)" that outlines the process recommended for the restoration and clean-up of contaminated sites. Applicants on sites that may be contaminated will be required to demonstrate to the satisfaction of the City that they have addressed this Guideline.

This questionnaire is not required to be completed if a Phase 1 or Phase 2 Environmental Site Assessment (ESA), Remedial Work Plan (RWP) or Record of Site Condition (RSC) in accordance with the MECP's Guideline has been provided to the City of Oshawa.

1. Details of Subject Lands
