

**Municipal Class Environmental Assessment
Harmony Creek Sites 2 & 3 – Preliminary Designs for Erosion
Mitigation**

Public Information Centre (PIC) September 28, 2022 at 6:00PM

COMMENT/FEEDBACK FORM

The City wishes to ensure that anyone with an interest in this study has the opportunity to provide input on the Harmony Creek Sites 2 & 3 erosion mitigation alternatives. With the exception of personal information all comments will become part of the public record. To provide your comments, request additional information concerning this project or to join the study mailing list, please contact either of the Project Team members.

Comments

1. Existing Conditions

Background studies and existing site conditions were presented. Please review the presentation panels and let us know if you feel anything has been missed or if you have any questions.

2. Evaluation of Alternatives

Three alternatives have been identified and evaluated:

Alternative 1 – Do Nothing

Alternative 2 – Channel and Trail Realignment

Alternative 3 – Localized Bank Protection

The preliminary scoring of the alternatives by the project team suggests Alternative 2 – Channel and Trail Realignment as the preferred alternative. Do you support this outcome? Why or why not?

3. Additional Comments

Do you have any questions or comments about the project or the Class Environmental Assessment process?

Thank you for your comments!

Please email your completed comment forms to either contact listed below, by October 12, 2022, 4:30 pm
