Meeting Notes:

1. Optional Group Strategy Session

- Members were invited to participate in an optional group brainstorming session ahead of the Strategic Plan Consultation to help determine key points they wished to articulate/develop group recommendations.
- It was suggested that the entire Strategic Plan be framed through a lens of inclusion and belonging.
- Members questioned how this could be operationalized. Rather than having D.E.I. considerations be separate actions in the plan, is there a framework that would allow equity and an emphasis on belonging to be incorporated into the work of the entire corporation?
- Members suggested that a corporate wide Equity Audit should be included in the plan, as well as the development and implementation of an Equity Assessment Tool that should be utilized in all areas of the City.
- Members questioned what D.E.I. means in action and suggested that many of the City's D.E.I. initiatives had been largely performative up until this point. They argued that D.E.I. objectives should be substantive and action-oriented, measurable and that progress should be reported to community in order to ensure accountability.
- Members suggested that community be more meaningfully engaged in defining D.E.I. priorities to ensure that the City's objectives are substantive and actually meet the needs of residents.
- The City's budget needs support equity work across the entire corporation.
- City Hall and City Council landscape/structure – what does DEI mean in action? Measurable, action-oriented and reported to community – greater accountability, leveling the playing field in terms of physical
- It was suggested that D.E.I. should be its own pillar in the Strategic Plan, rather than a few singular objectives scattered throughout
