List of Designated Properties	1-18
What are Register Non-Designated Properties?	II

# What are Designated Properties?

Designated properties are those designated by by-law under Part IV and Part V of the Ontario Heritage Act. Designation under the Ontario Heritage Act helps to recognize and protect the heritage features on that property.

Property designation is not limited to buildings or structures but can include groups of buildings, cemeteries, natural features, cultural landscapes or landscape features, ruins, archaeological and marine archaeological sites, or areas of archaeological potential. Designation not only publicly recognizes and promotes awareness of heritage properties but also provides a process for ensuring that changes to a heritage property are appropriately managed and that these changes respect the property's heritage value. This includes protection from demolition and the removal of heritage attributes.

Heritage designation recognizes the importance of a property to the local community, protects the property's cultural heritage value, encourages good stewardship and conservation, and promotes knowledge and understanding about the property.

The advantages of heritage designation include:

- Conserving irreplaceable, highly visible resources;
- Recognizing community identity and contributing to the local quality of life;
- Qualifying the property owner for tax credits (when available);
- Acknowledging Oshawa's architectural past;
- Benefitting economic sectors, including tourism; and,
- Encouraging pride in the history and cultural heritage resources of the community;

Designation is protective of only those heritage attributes specified in the designation by-law; therefore owners of designated properties are free to make alterations to those aspects of their property that are not listed as heritage attributes in the property's designation by-law.

Owners of designated properties are not prohibited from undertaking alterations that affect the listed heritage attributes, but only require written approval from City Council.

Owners of designated properties do not require City Council approval for minor alterations or regular maintenance and are not required to restore the property to its original condition, required to open their property to the public, or expected to incur expenses beyond those of any other responsible property owner.

The following is a listing of all properties designated in the City of Oshawa under Section 29, Part IV of the Ontario Heritage Act. Also listed is the South Field Heritage Conservation District at 1000 Stevenson Road North, designated under Section 41, Part V of the Ontario Heritage Act.

**Address:** 185 Bond St W  
201 Bond St W

# What are Register Non-Designated Properties?

Pursuant to Section 27 of the Ontario Heritage Act, Council may choose to add a property to the City of Oshawa Register of Properties of Cultural Heritage Value or Interest as a “Register Non-Designated” property. This can be done through a resolution of Council, subject to consultation with Heritage Oshawa.

A Register, Non-Designated Property, also referred to as a “Listed, Non-Designated Property”, is protected under the Ontario Heritage Act to the extent that a municipality can withhold a demolition permit for up to 60 days after receiving an application from the property owner to demolish or remove the building or structure. This 60 day period enables municipal councils, if they so choose, to designate the property by by-law as a property of cultural heritage value or interest, and thereby seek to prevent demolition.

The owner of a Register Non-Designated Property must give Council notice of at least 60 days of its intent to demolish a structure on the property.

The following is a listing of all Register Non-Designated Properties in the City of Oshawa protected under Section 27, Part IV of the Ontario Heritage Act, but not designated under Section 29.

**\*The City of Oshawa does not currently have any Register, Non-Designated Properties\***
